Rating Rationale

January 29, 2020 | Mumbai

Delhi Transco Limited

Rating upgraded to 'CRISIL A+/Stable'

Rating Action

Rs.620 Crore Bond (Reduced from Rs.700 Crore)

CRISIL A+/Stable (Upgraded from 'CRISIL A/Stable')

1 crore = 10 million

Refer to annexure for Details of Instruments & Bank Facilities

Detailed Rationale

CRISIL has upgraded its rating on the bonds of Delhi Transco Limited (DTL) to 'CRISIL A+/Stable' from 'CRISIL A/Stable'.

Rating on the bonds worth Rs 80 crore has been withdrawn as the same have been fully redeemed. The rating action is in line with CRISIL's policy on withdrawal of ratings (refer to Annexure - Details of Rating Withdrawn).

The upgrade reflects the improvement in DTL's financial risk profile due to sustained increase in payment collection from BSES Rajdhani Power Ltd (BRPL) and BSES Yamuna Power Ltd (BYPL). DTL received 130% (includes past dues) of the amount billed from these two counterparties in fiscal 2020 (till December 2019), against 114%, 80%, 66%, and 33% in fiscals 2019, 2018, 2017, and 2016, respectively. The improvement in collection efficiency is also supported by the Government of National Capital Territory of Delhi (GoNCTD) paying the power subsidy of around Rs 400 crore annually, attributable to BRPL and BYPL, directly to DTL. Furthermore, BRPL and BYPL have submitted a liquidation plan for clearing all the past dues till fiscal 2024, which lends additional comfort.

The improved cash flow has strengthened overall liquidity, thus enabling DTL to prepay a large part of its external borrowing. This has improved credit metrics, with interest coverage ratio and gearing at 7 times and 0.3 time, respectively, as on March 31, 2019, against 4.6 times and 0.8 time, respectively, as on March 31, 2017.

Continued receipt of timely payments from key counterparties such as BYPL, BRPL, and Tata Power Delhi Distribution Ltd (TPDDL); as well as sustenance of adequate liquidity will be key monitorables.

The rating factors in DTL's monopoly in Delhi's transmission business, efficiency of operations in terms of low transmission loss and above-normative line availability leading to full recovery of cost under the regulated tariff structure, and healthy financial risk profile. These strengths are partially offset by weak counterparty risk profile.

Key Rating Drivers & Detailed Description

Strengths:

Monopoly in intra-state power transmission business in Delhi

DTL enjoys a natural monopoly and transmits power from the central generating utilities, Pragati Power Corporation Ltd (PPCL) and Indraprastha Power Generation Co Ltd (IPGCL), and from private generators to distribution companies (discoms) in Delhi. This monopoly is likely to continue in the long term as the economies of power transmission do not favour multiple networks in the same area. Also, as the designated state transmission utility (STU), DTL plans and coordinates the wheeling of power and plays a crucial role in the state's economy, as the entire power available in the state flows through its network.

Full recovery of cost under regulated tariff structure

The company operates under a well-developed regulatory framework. Tariff is determined by the Delhi Electricity Regulatory Commission (DERC), and enables DTL to recover expenses and allows for return on capital employed (RoCE; which includes interest cost) based on network availability, provided it meets DERC's stipulated operating norms. DTL has continuously recovered revenue as set in tariff orders issued by DERC, supported by efficient operations with line availability of over 99%, as against the performance benchmark of 98% set by the regulator for full recovery of cost and RoCE.

Efficient operations

Transmission loss of below 1% on its own network indicates DTL's efficient operating profile. Although recovery of receivables from key customers was previously delayed, collection has improved since April 2016, supported by GoNCTD paying the power subsidy of around Rs 400 crore annually to DTL. The company's transmission network had above-normative line availability, leading to full recovery of fixed cost.

Healthy financial risk profile

Financial risk profile has improved with higher collection efficiency from discoms. Gearing reduced to 0.3 time as on March 31, 2019, from 1.55 times as on March 31, 2014, because of steady accretion to reserve and a Government of India grant of Rs 200 crore in fiscal 2015, which is considered as part of network. Interest coverage ratio steadily improved to 7 times as on March 31, 2019, from 4.6 times as on March 31, 2017, and is expected to further improve in fiscal 2020 with sustained accrual and repayment of government debt.

Weakness:

DTL (account for over 80% of DTL's revenue), have weak financial risk profiles because of a regulatory asset base and high gearing. This has, in the past, led to significant build-up of receivables, thereby adversely affecting liquidity. Receivables increased to Rs 1,740 crore as on March 31, 2018, from Rs 379 crore as on March 31, 2011. Improving collection efficiency, receivables have declined to Rs 1,598 crore as on September 30, 2019. Nonetheless, any build-up of receivables over the medium term will remain a key rating sensitivity factor.

Liquidity: Strong

Cash and bank balance stood at Rs 535 crore and unutilised working capital limit was Rs 175 crore, as on September 30, 2019. Cash accrual is expected to be sufficient to cover debt obligation over the medium term. Flexibility in terms of servicing GoNCTD loans further supports liquidity.

Outlook: Stable

CRISIL believes DTL's improved financial risk profile, especially liquidity, will sustain over the medium term given that receipts from discoms remain high.

Rating Sensitivity factors:

Upward Factors:

- * Continued collection efficiency of over 100% from discoms along with recovery of past dues
- * Sustained improvement in financial risk profile on account of strong operational performance and moderate capital expenditure (capex)

Downward Factors:

- * Collection efficiency falling below 80% on a sustained basis
- * Any large, debt-funded capex weakening financial risk profile.

About the Company

DTL, established in 2001, is wholly owned by GoNCTD with a direct holding of 93.4% and holding through Delhi Power Company Ltd (DPCL) of 6.6%. As envisioned in the Delhi Electricity Reform (Transfer Scheme) Rules, 2001, the erstwhile Delhi Power Board was unbundled into one holding company (DPCL), two generation companies (IPGCL and PPCL), a transmission company (DTL), and three discoms (South-West Delhi Electricity Distribution Company Ltd, Central-East Delhi Electricity Distribution Company Ltd, and North-Northwest Delhi Distribution Company Ltd). The three discoms were privatised and were renamed BRPL, BYPL, and TPDDL. DTL was initially involved in transmission and bulk power trading. Under the provisions of the Electricity Act 2003, DTL divested its bulk supply business in April 2007. This business was transferred to the three discoms. All power purchase agreements signed with DTL by the central power utilities, state generating companies, and private generators were transferred to the three discoms. Due to the transfer, DTL is currently involved in transmission and has been designated as the STU in the National Capital Region.

About CRISIL Ratings

CRISIL Ratings is part of CRISIL Limited ("CRISIL"). We pioneered the concept of credit rating in India in 1987. CRISIL is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI"). With a tradition of independence, analytical rigour and innovation, CRISIL sets the standards in the credit rating business. We rate the entire range of debt instruments, such as, bank loans, certificates of deposit, commercial paper, non-convertible / convertible / partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 24,500 large and mid-scale corporates and financial institutions. CRISIL has also instituted several innovations in India in the rating business, including rating municipal bonds, partially guaranteed instruments and microfinance institutions. We also pioneered a globally unique rating service for Micro, Small and Medium Enterprises (MSMEs) and significantly extended the accessibility to rating services to a wider market. Over 1,10,000 MSMEs have been rated by us.

Kind Attn: Mr. P.K. Malik, Director – Finance

Dear Sir,

Re: Bank Loan Ratings of Delhi Transco Limited

India Ratings and Research (Ind-Ra) has upgraded Delhi Transco Limited's (DTL) Long-Term Issuer Rating to 'IND AA-' from 'IND A+'. The Outlook is Stable. The instrument-wise rating actions are as follows:

Instrument Type	Size of Issue (billion)	Rating/Outlook	Rating Action	Historical Rating/Outlook as on 25 January 2019
Long-term loans	INR4.33 (reduced from INR5.28)	IND AA-/Stable	Upgraded	IND A+/Positive
Bond programme	INR1.2 (reduced from INR1.4)	IND AA-/Stable	Upgraded	IND A+/Positive
Fund-based limits	INR1.40 (reduced from INR1.75)	IND AA-/Stable /IND A1+	Upgraded	IND A+/Positive/ IND A1
Non-fund-based limits	INR0.50 (reduced from INR1.00)	IND AA-/Stable /IND A1+	Upgraded	IND A+/Positive/ IND A1

The bank wise facilities and bond details are mentioned in the annexure.

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings' factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings' ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in an India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find India Ratings' ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating, to investors.

The assignment of a rating by India Ratings does not constitute consent by India Ratings to the use of its name as an expert in connection with any registration statement or other filings under US, UK or any other relevant securities laws. India Ratings does not consent to the inclusion of this letter communicating our rating action in any offering document.
